# **Hotel booking statement**

Context summarization

The client is **a new hotel**. They're looking to create an online booking experience that is simple, accessible and based on a deep understanding of their target users.

Before deeping into each screen, I started by a basic sketch of the user flow.

The sketches are based on my flow diagram design and each screen represents a screen state.

In the following slides, I will detail each screen and step of the flow.

I will make note of any issues or insconstencies that become apparent.

**Material** : I used drawing paper, drawing pencils, colored pencils and felt pens.

	AsmE	CHECK INTONTE		CAREGO OUT DATE	Nº BARTE
